

### **STI's Commitment to Safety During Coronavirus**

Are you considering adding solar or a solar battery to your home? Or air conditioning? Do you have a roof leak or need to replace your roof? We can help you.

Our business is considered an essential service. We make sure we follow all recommended steps to ensure your safety and the safety of our staff during these Covid-19 times.

We are available by phone or a virtual meeting to discuss your needs and answer your questions. To limit the number of times we need to go to your home, we may need a few photos that you can simply email or text to us so that we may provide you with an accurate price quote.

Our employees follow all CDC guidelines including social distancing, facemasks, gloves and sanitizers. Most of our work, if not all, is on the exterior of your home. Prior to any installation, we will make sure all your concerns are fully addressed in advance.

We wish you and your family good health and to stay safe.
